

**The Praxair Solution**

The Praxair solution is to provide a calibration and delivery system which ensures the reliability of your monitoring processes.

Praxair has collaborated with industry, regulatory agencies, and instrument manufacturers to ensure you receive a creative and cost effective system, which provides accurate and reliable calibration products.

These smaller-sized, lightweight cylinders require no deposit or monthly rental charge. They are easier to handle, less expensive to ship, and use very little space.

**The Applications**

- Workplace Air Monitoring
- Confined Space Entry
- Medical Stations
- Emergency Response Kits

**The Products**

- Calibration Standards
- Zero Gases
- Emergency Oxygen Kits

**Transportable Containers**

**Steel – Non-Reactive Gases**

Style	Contents (liters/ft <sup>3</sup> )	Pressure (psig)	Outlet CGA	Weight (lbs)	Dimensions	DOT Specs	Regulator	Page
D17	17/0.6	240	600	1.1	3" x 10 3/4"	39NRC	400 Series	F34
D34	34/1.2	500	600	1.4	3" x 10 3/4"	39NRC	400 Series	F34
D103	103/2.3	1000	C-10 5/8"-18 UNF	2.3	3 1/4" x 13 2/3"	39NRC	500 Series	F34
