

Comprehensive, High-Quality Product Line

A full range of certified gases, mixtures, gas handling equipment and related services.

Application-Based Solutions

Sales, production and research capabilities and the ability to supply end use customers, OEMs and research institutes with a safe, accurate and precise product worldwide.

Reliable Production and Distribution Network

Twenty-six specialty gases laboratories and production centers, hundreds of distribution locations in North America and Praxair's own delivery fleet – all serving you with the gases you need when you need them.

Outstanding Technical Support

A highly trained team of field sales representatives, technical service personnel and production chemists, in concert with dedicated market specialists who quickly provide the guidance and support our prospects and customers need to resolve regulatory, technical and safety application issues.

Worldwide Coverage

Application-based research and development at five international technical centers, combined with specialty gases production and distribution in over 40 countries.
